## TECHNICAL DATA SHEET

## **ASBP7 Anti-static Bubble Film Pouches**

Product description	P
	g
	n
Don't at July	
Product data	9
~ pouch width	3 4
~ pouch depth	4
Technical data	
~ static decay	<
~ static resistivity	b
-	

Pink bubble film in pouch format, used to dissipate electrostatic charges generated during handling and packaging, making it an ideal material for sensitive electronic components

380mm 435mm

< 1 second (BS 2782: part 2 method 250A) - very good better than 10<sup>12</sup> ohms (BS 2782: part 2 method 231A)
